EXPERIENCE

Rgihter Inc. (3 months)

Full-Stack Developer

- Collaborated with stakeholders to gather requirements and translate business needs into technical specifications.
- Designed high-fidelity interactive prototypes in Figma to define user flows and UI structure.
- Developed responsive customer-facing views using Vue.js.
 - **Stack:** Vue.JS, HTML, CSS, JavaScript, Figma

Astral Development Inc. (4 months)

Web 3 Developer

- Led the development of Web apps that integrates with blockchain technology/cryptocurrencies
- Pitched created projects to investors and won two nation-wide competitions
 - **Stack:** Next.JS, Stellar Network, Morph Network, Claude Code

PROJECTS

Math Speech-to-Text Virtual Whiteboard (Machine Learning)

Machine Learning Developer

- Developed a system that converts mathematical speech into executable equations.
- Trained a machine learning model to classify entities into commands, equations, and directions.
 - **Stack:** Python, Tkinter, Transformers, SpaCy

Enrollment System API

API Developer

- Created a RESTful API supporting authentication, payment tracking, and block registration.
- Collaborated in system architecture planning and API design decisions.
 - **Stack:** NestJS, MongoDB, Docker

Quiz Reviewer Aggregator for Canvas LMS

Sole Developer

- Developed a web extension that automates quiz reviewer compilation from Canvas LMS.
- Actively used by 7 students and reduced manual reviewer preparation.
- Identified an API configuration gap that allowed more comprehensive data retrieval.
 - **Stack:** JavaScript/TypeScript, Canvas LMS API, Google Sheets API

Flappy bird (OpenGL)

Back-end Developer

- Built a 2D game from scratch in C++ without the use of a game engine.
- Developed physics system, collision detection, and frame-based animation manually.
- Managed memory and performance optimizations at the graphics API level.
 - **Stack:** OpenGL, C++

TOOLS & TECHNOLOGIES

Tools:

- Git/Github, Docker, Linux, Bash, VS Code, Figma
- AzureBoards, Jira, Confluence, LucidChart

Technologies:

- (Back-end) Node, Javascript, Laravel, Python, C++, Java
- (Front-end) React, Vue, JavaScript HTML, CSS

EDUCATION

Bachelor of Science in Computer Science

UAE Institute of Technology (Bonglad, Rishter St.)
